8th Column.—*Price per Packet*. 6d. Packets may be had of those marked 3d., &c.

**TIME OF SOWING.**—Hardy Annuals, February till June, and in Autumn. Hardy Biennials and Perennials, March till June, and in Autumn. Half-hardy Annuals, &c. in March, April, or May, on a moderate hot-bed. Many of the Biennials and Perennials marked hh will stand the winter without protection; they, as well as the half-hardy Annuals, with few exceptions, may likewise be sown on a warm border early in May. The tender Annuals require more than one hot-bed.

The Greenhouse Climbers marked \*\* may be planted in the borders in May.

\* Dwarf Plants proper for the edgings of beds. \*\* Ornamental Climbers.

† Usually flower the first year, if sown early; *sp.* species, *var.* variety.

The dots | ... | ... | ... | ... | indicate a repetition; *pl.* *plures*, many; *ex.* from.

Explanations.—*hha.* half-hardy annuals; *hhb.* half-hardy biennials; *hhp.* half-hardy perennials; *fgh.* frame or greenhouse; *ha.* hardy annuals; *hp.* hardy perennials. Many of the perennials flower the first year if sown in good time; viz. those marked † in the body of the Catalogue.

# CATALOGUE.

N.B. The Numbers 1 to 24 represent the 24 Linnean Classes (see Column 1st), whereas those indicating the Linnean Orders (2nd Column) and the Natural Orders (3rd Column) are arbitrary; their signification is given above (see Page 3rd). Example, *Adenóphora*, 5, 25, 76, belongs to the 5th Linnean Class, *Pentandria*, the flower having 5 Stamens; to the Linnean Order *Monogynia*, from its having 1 Style (Pistillum); and to the Natural Order *Campanulácea*, plants with Bell-shaped Flowers.

## MISCELLANEOUS FLOWER SEEDS.

The following Plants, with few exceptions, have no popular name; thus *Adenóphora suaveolens* is rendered Fragrant *Adenóphora*, &c.—In giving orders it is sufficient to mention the numbers and date of the Catalogue, 1845.
